---

## Professional Summary

Dynamic and passionate Full Stack Web Developer with expertise in modern technologies, frameworks, and application development. Skilled in building robust, scalable solutions with a focus on quality, performance, and user experience. Experienced in QA, testing, and client support. Thrives in collaborative environments with a commitment to continuous improvement and delivering excellence.

---

## Technical Skills

**Programming Languages & Tools:** JavaScript, TypeScript, SQL, Node.js, React, Angular, HTML, CSS, Docker, Git, MongoDB

**Frameworks & Libraries:** Redux, Socket.io, Prime React

**Core Competencies:** Problem-Solving, Time Management, Attention to Detail, Adaptability, Team Collaboration

---

## Professional Experience

### Full Stack Web Developer

**John Bryce** | Tel Aviv, Israel

*November 2022 – November 2023*

- Designed, developed, and deployed multiple full-stack web applications using modern technologies like React, Node.js, and SQL.
- Gained hands-on experience across the full development lifecycle, including planning, coding, debugging, and deployment.
- Collaborated with teams to tackle complex problems, refine requirements, and deliver high-quality software solutions.

### QA, Support & Implementation Specialist

**Depoint** | Ashdod, Israel

*February 2022 – June 2023*

- Conducted detailed regression testing to identify and document software defects, contributing to faster and more reliable releases.
  - Delivered exceptional client support by troubleshooting technical issues, providing guidance, and ensuring satisfaction.
  - Streamlined communication between development teams and end users to optimize implementation processes and resolve technical challenges efficiently.
- 

## Projects

### Vacations Management App

- Built a web application for vacation management featuring distinct user and admin interfaces.
- Utilized **Redux**, **Node.js**, and **SQL** for a robust backend and seamless state management.
- Enhanced user experience by integrating **Prime React** components and custom CSS for an intuitive UI.

### Vehicles Management System

- Developed a comprehensive data management system using **Angular**, **Node.js**, and **MongoDB**.
  - Implemented dynamic routing and modularized Angular components for a scalable and maintainable architecture.
- 

## Education

### Full Stack Development Program

**John Bryce** | Tel Aviv, Israel | *Completed 2023*

### High School Diploma

**Ort Rabin** | Gan Yavne, Israel | *Completed 2018*
